- **Osoule(Back-End Developer (PHP – Laravel))** January 2019 – March 2020

  > Worked on an ERP system, focusing on developing efficient and clean code using Laravel.

  > Successfully handled issue resolution, ensuring a smooth and reliable functioning of the ERP system.

  > Collaborated with cross-functional teams to deliver a more streamlined and efficient system.

  > **Skills:** Laravel · Clean Coding · Issue Handling · PHP · HTML · CSS · JavaScript.

- **Freelance Experience**

  > Developed custom web applications using PHP Laravel framework.

- ➢ Collaborated with clients to understand project requirements and deliver tailored solutions.

- ➢ Implemented clean coding practices and conducted rigorous testing to ensure high-quality and reliable software products.

- ➢ **Skills:** Laravel - Clean Coding - Issue Handling - PHP - HTML - CSS - JavaScript.

EDUCATION

Faculty of Computer and artificial intelligence October university Sep 2016 — 2020

Graduation project degree: Excellent
Graduation Project Idea : Learn Management System (BFCAI)

QUALIFICATIONS

- PHP, MySQL   -Html, Css
- Laravel   -Html 5, Css3
- JavaScript.
- VueJs
- NuxtJs   -Bootstrap
- Design Patterns   -Deal with different server.
- Git   -GitHub, Bitbucket

SOFTWARE ENGINNERING

- Asp.net   -Python
- Java   -Prolog
- C++   -Oracle Database
- Data Structure
                                -Problem Solving

CERTIFICATES && COURSES

I completed the Front-End Web Developer Nanodegree (2017)

- Html, CSS, JavaScript Pro
- Link Certificate

https://confirm.udacity.com/9T4QFEKA

I completed IBM cloud computing course and I get the IBM Academic certificate (2019).

INTERESTS

- Programming, Computer Games.

- Watching Movies, Travelling.
