Summary

Backend Developer skilled in PHP Laravel, OOP, and clean, maintainable code. Experienced in AI integration, design patterns, and SOLID principles to build scalable and efficient solutions. Passionate about contributing to innovative projects.

Work Experience

- **Wakeb Data (Back-End Developer (PHP – Laravel)) October 2022 – Present**
 - **Experience at Wakeb_Data:** Contributed to important projects by developing services using AI models.
 - **Commitment to Quality Code:** Emphasized writing clean code, following SOLID principles, and using design patterns for scalable applications.
 - **Notable Achievements:** Designed and implemented scalable applications for data extraction and analysis. Worked on chatbots, created AI-powered data visualizations, and contributed to CRM system implementations, making a meaningful impact on project success.

- **Skills:** Laravel Lumen · Windows Server · Linux Server · Problem Solving · Design Patterns · PHP · Laravel · HTML · CSS · JavaScript.
- **Hype Solutions (Back-End Developer (PHP – Laravel)) June 2022 – October 2022**
 - Worked on an ERP system, focusing on developing efficient and clean code using Laravel.
 - Successfully handled issue resolution, ensuring a smooth and reliable functioning of the ERP system.
 - Collaborated with cross-functional teams to deliver a more streamlined and efficient system.
 - **Skills:** Laravel · Clean Coding · Issue Handling · PHP · HTML · CSS · JavaScript.
- **Freelance Experience**
 - Developed custom web applications using PHP Laravel framework.
 - Collaborated with clients to understand project requirements and deliver tailored solutions.
 - Implemented clean coding practices and conducted rigorous testing to ensure high-quality and reliable software products.
 - **Skills:** Laravel · Clean Coding · Issue Handling · PHP · HTML · CSS · JavaScript.

EDUCATION

Faculty of Computer and artificial intelligence Benha university Sep 2016 — 2020

Graduation project degree: Excellent

Graduation Project Idea : Learn Management System (BFCAI)

QUALIFICATIONS

- PHP, MySQL
- Laravel
- JavaScript.
- Design Patterns
- Git

- Html, Css
- Html 5, Css3
- Bootstrap
- Deal with different server.
- GitHub, Bitbucket

SOFTWARE ENGINEERING

- Asp.net
- Java
- C++
- Data Structure

- Python
- Prolog
- Oracle Database

- Problem Solving

CERTIFICATES & COURSES

I completed the Front-End Web Developer Nanodegree (2017)

- **Html, CSS, JavaScript Pro**
- **Link Certificate**

<https://confirm.udacity.com/9T4QFEKA>

I completed IBM cloud computing course and I get the IBM Academic certificate (2019).

INTERESTS

- **Programming, Computer Games.**
- **Watching Movies, Travelling.**
